

Product Code . JE-AI-10591

Auto Karl Fischer Titri Meter

Description

Auto Karl Fischer Titri Meter

Description:

Power : 230V \pm 10% AC 50 Hz

Display : Array of 10 LED'S in line

Sample Size : 1 -50 mg of water

Measuring Electrode : Dual Platinum Electrode.

K.F. Dispensing Resolution : 0.05 ml

Timer : Adjustable Timer

Indication Run Add End

Display in Auto Mode

Detection Current Sensing by

electronic control.

Karl Fischer Flow : Highly sensitive solenoid control valve for automatic control of Karl Fischer Reagent.

Burette : Pressure filling auto zero burette with 0.05 ml resolution

Titration Cell : Air tight 200 ml glass vessel.

End Point Delay : 30 seconds

Buzzer : Yes

Stirrer : Variable speed magnetic stirrer with On/Off control.

ACCESSORIES : Burette (Clear Glass) 10ml, Reservoir Bottle 500ml, Rubber Bellow for Pumping Air, Titration Cell 200 ml, Dual Platinum Electrode, Teflon Coated Magnetic Stirring Capsule, Nozzle, Moisture Trap with Rubber Tubing, Instruction Manual.

Auto Karl Fischer Titri Meter Manufacturer, Auto Karl Fischer Titri Meter Exporters in India, Auto Karl Fischer Titri Meter Suppliers, Auto Karl Fischer Titri Meter India, Analytical Instruments, Fischer Titri Meter Suppliers, Fischer Titri Meter Exporter, Fischer Titri Meter Manufacturer in India
