

Product Code . JE-AI-10592

## Automatic Elisa Plate Analyzer

### Description

---

Robust system with built-in stabilizer

Built in Shaker with variable speed & duration

Extensive Curve Plotting

Results printing in matrix mode format

Option to run multiple blank in Cut-Off mode

Bichromatic Readings

Robust system with built-in stabilizer

Ability to read from any strip in a single plate

Facility to enter clinic name

Unique circuitry for long life of lamp

Automatic ELISA plate analyser with user friendly and sophisticated on board software. It is a stand alone system for all routine immunoassays, Biochemicals, hormones and drug levels. Its versatile and extensive software supports most of the calculations required for interpretation of results. It is economical, reliable and high precision machine.
